ACCOUNTABILITY LADDER

OPERATING MODEL CANVAS TEMPLATE - POLISM

Operating Model Canvas has six elements:

Processes / Value delivery chain

The work that needs to be done to deliver the value or service proposition

Organisation

The people who do the work and how they are organized

Locations

Where the work is done and what buildings and assets are needed in these locations

Information

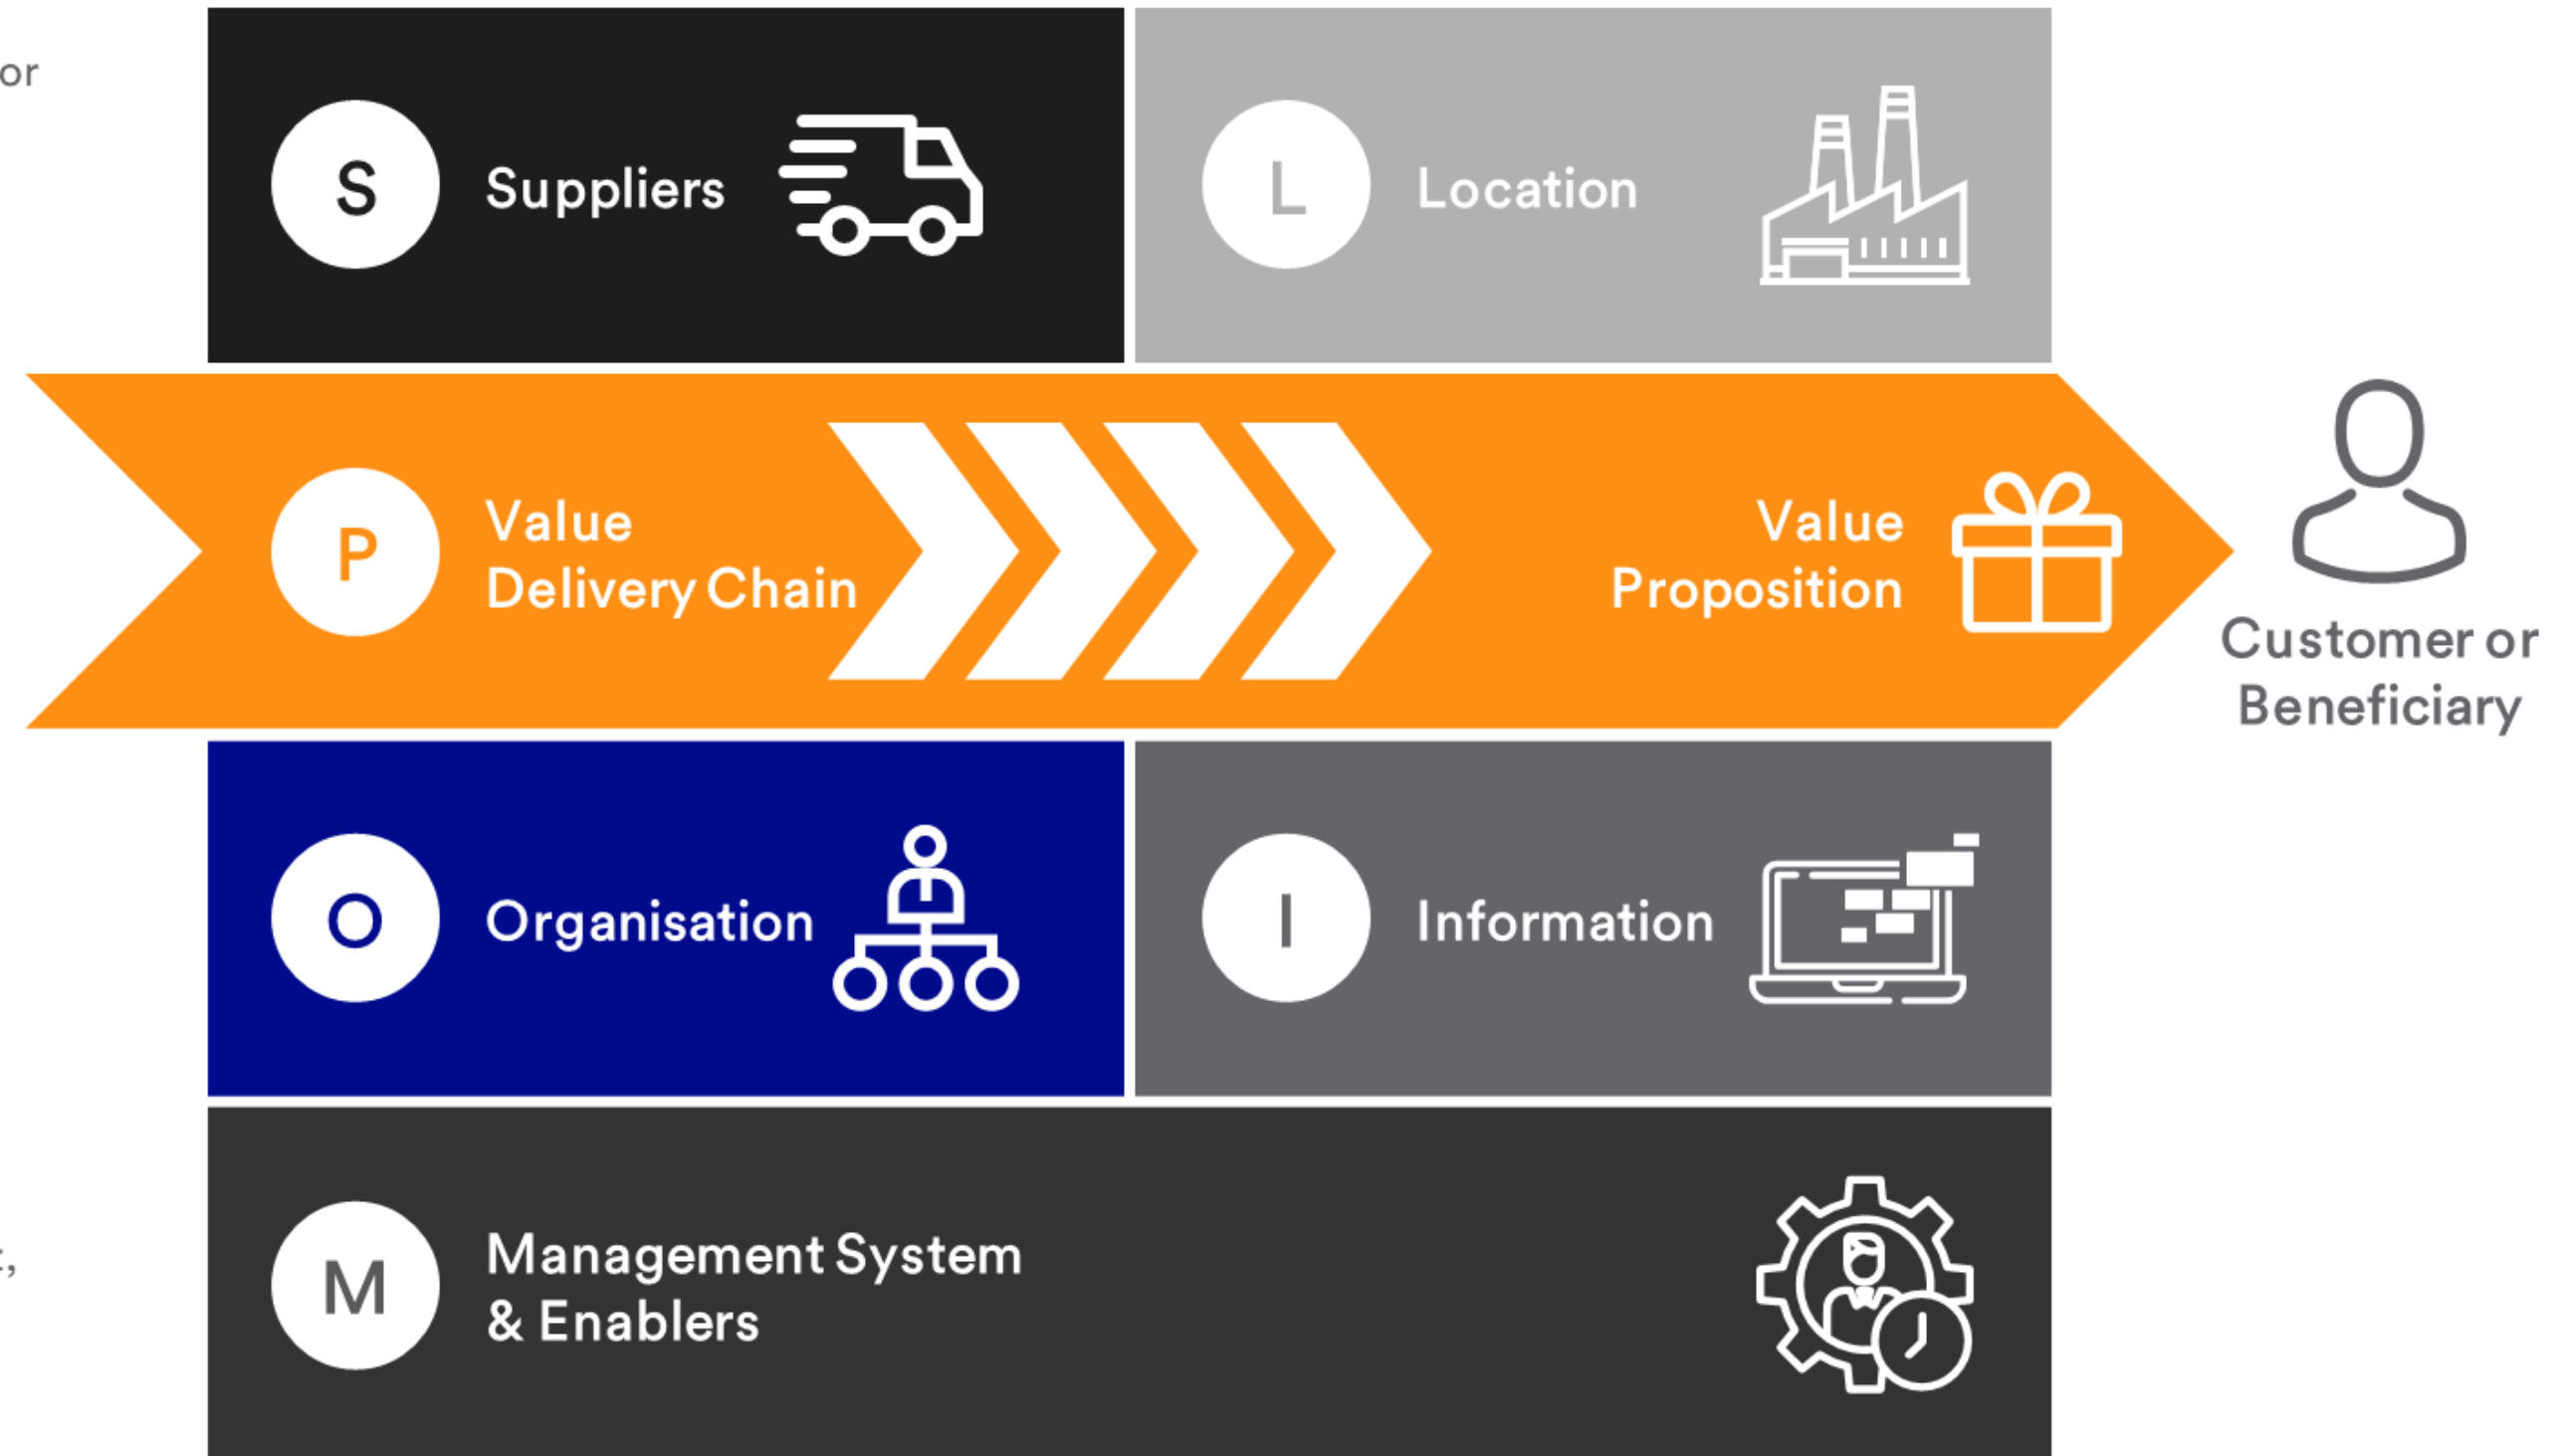

The information systems that support the work

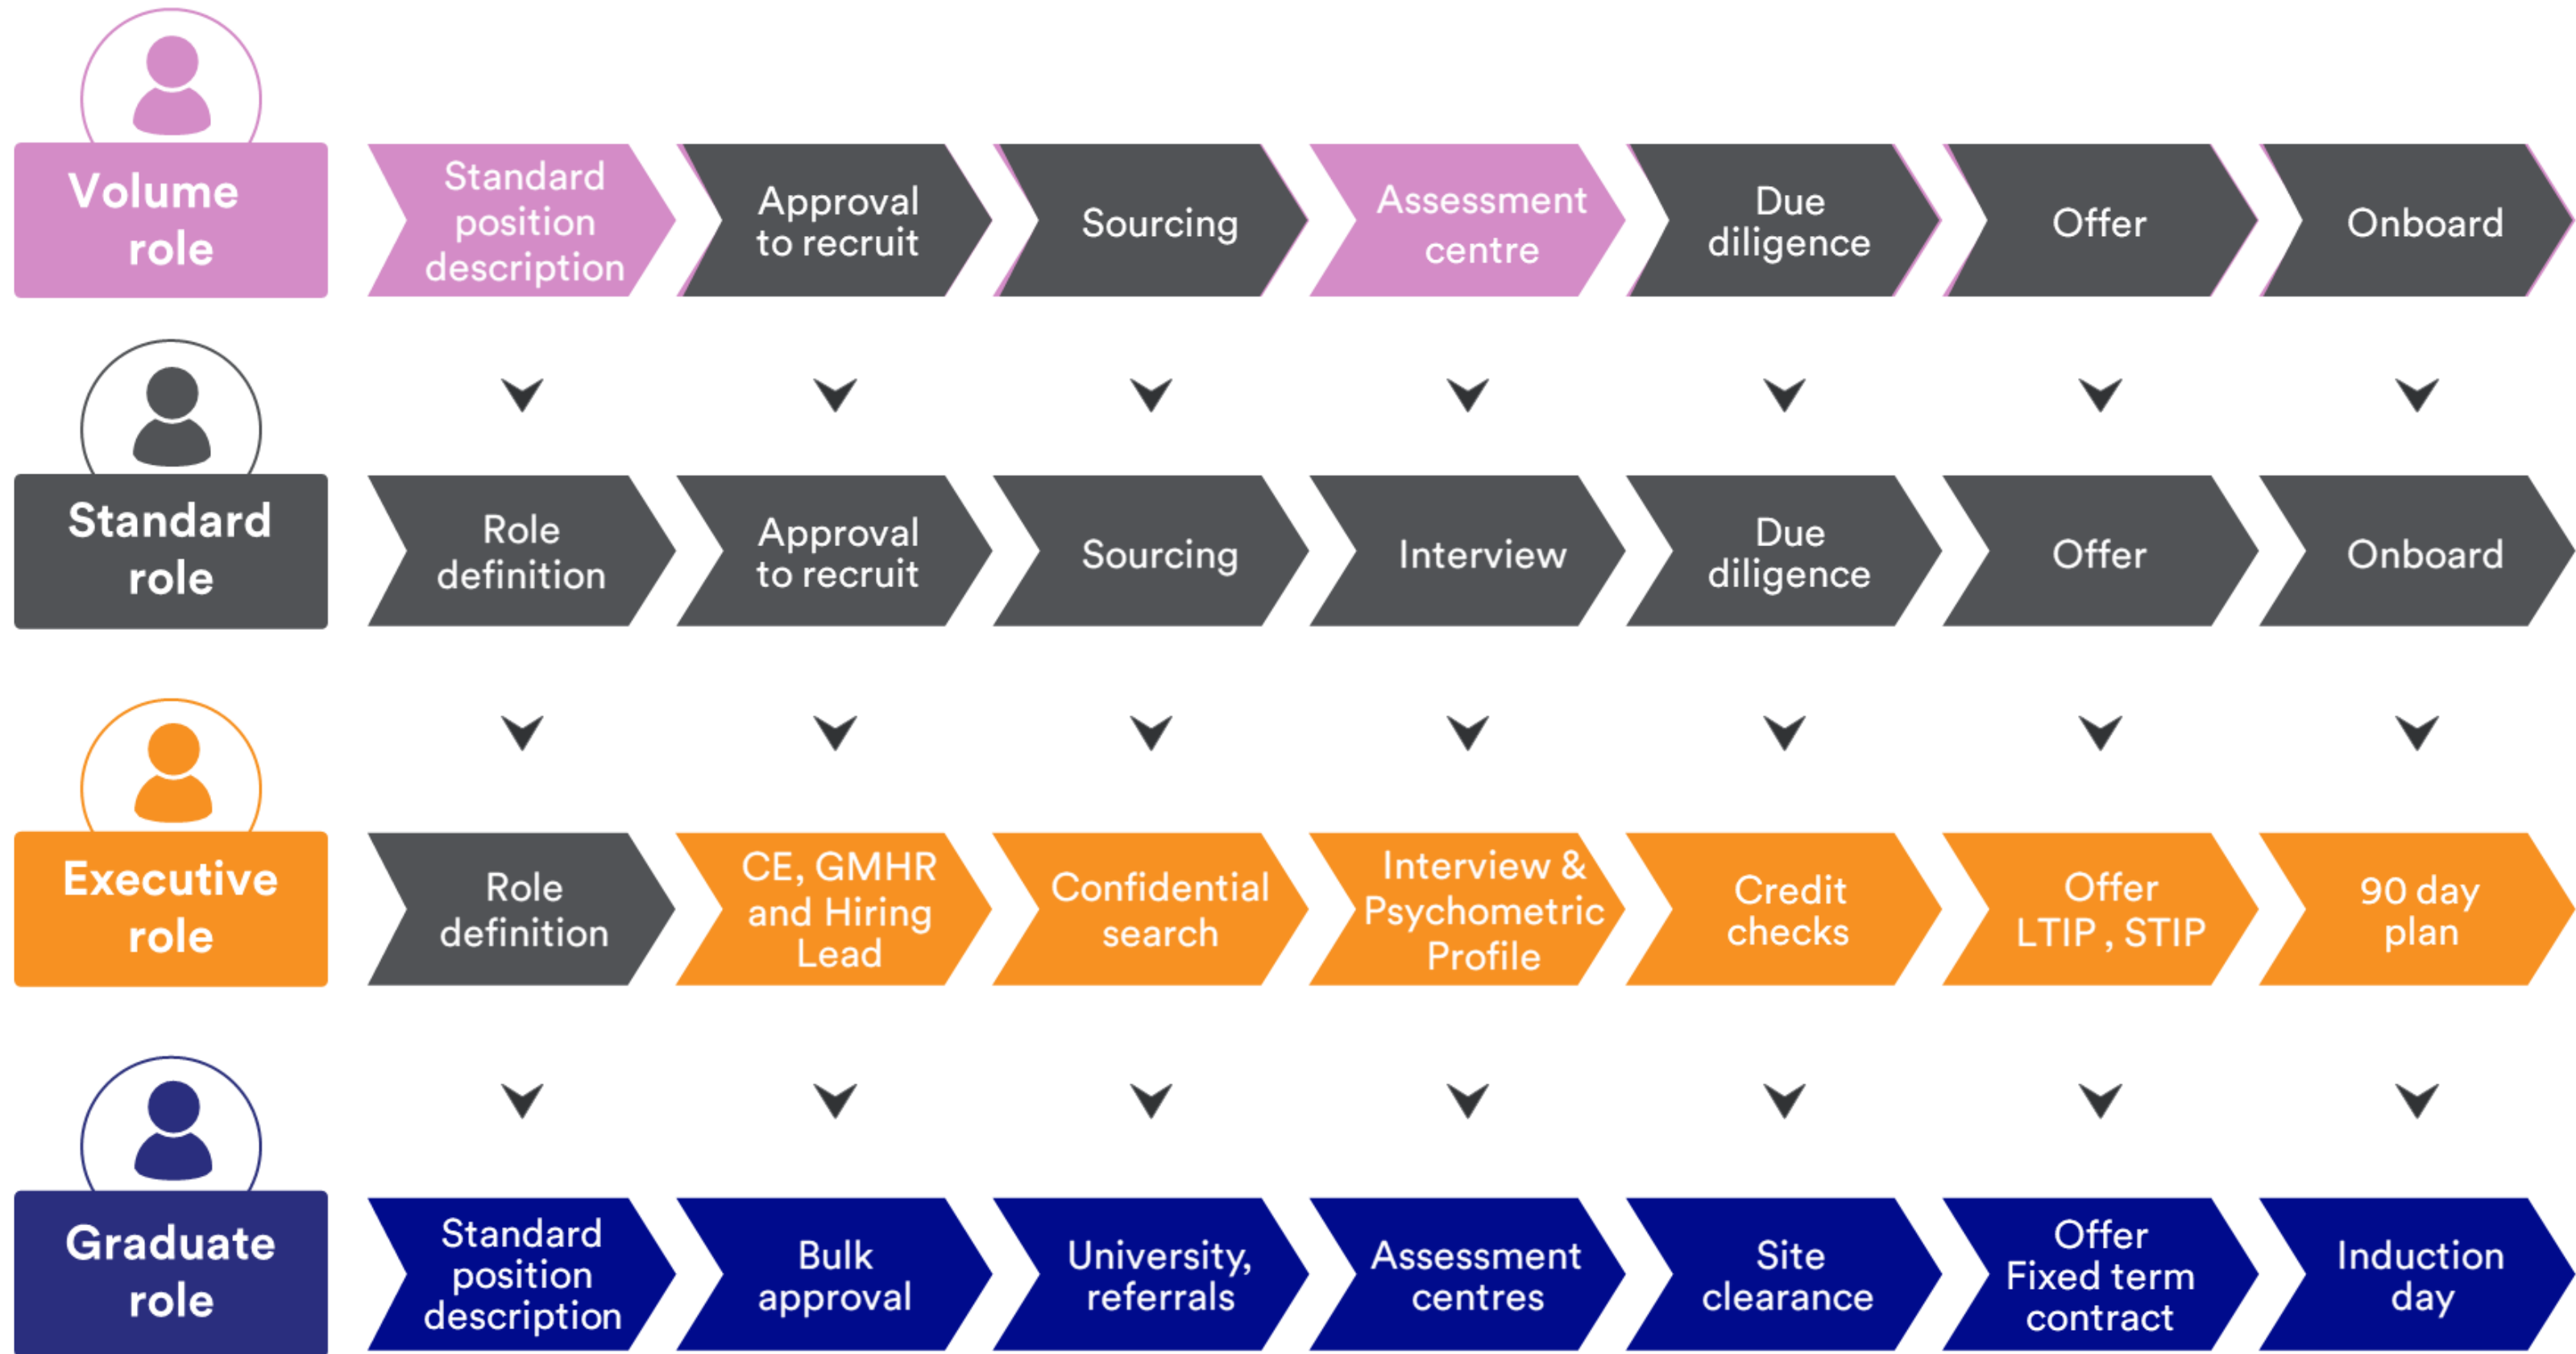

Suppliers

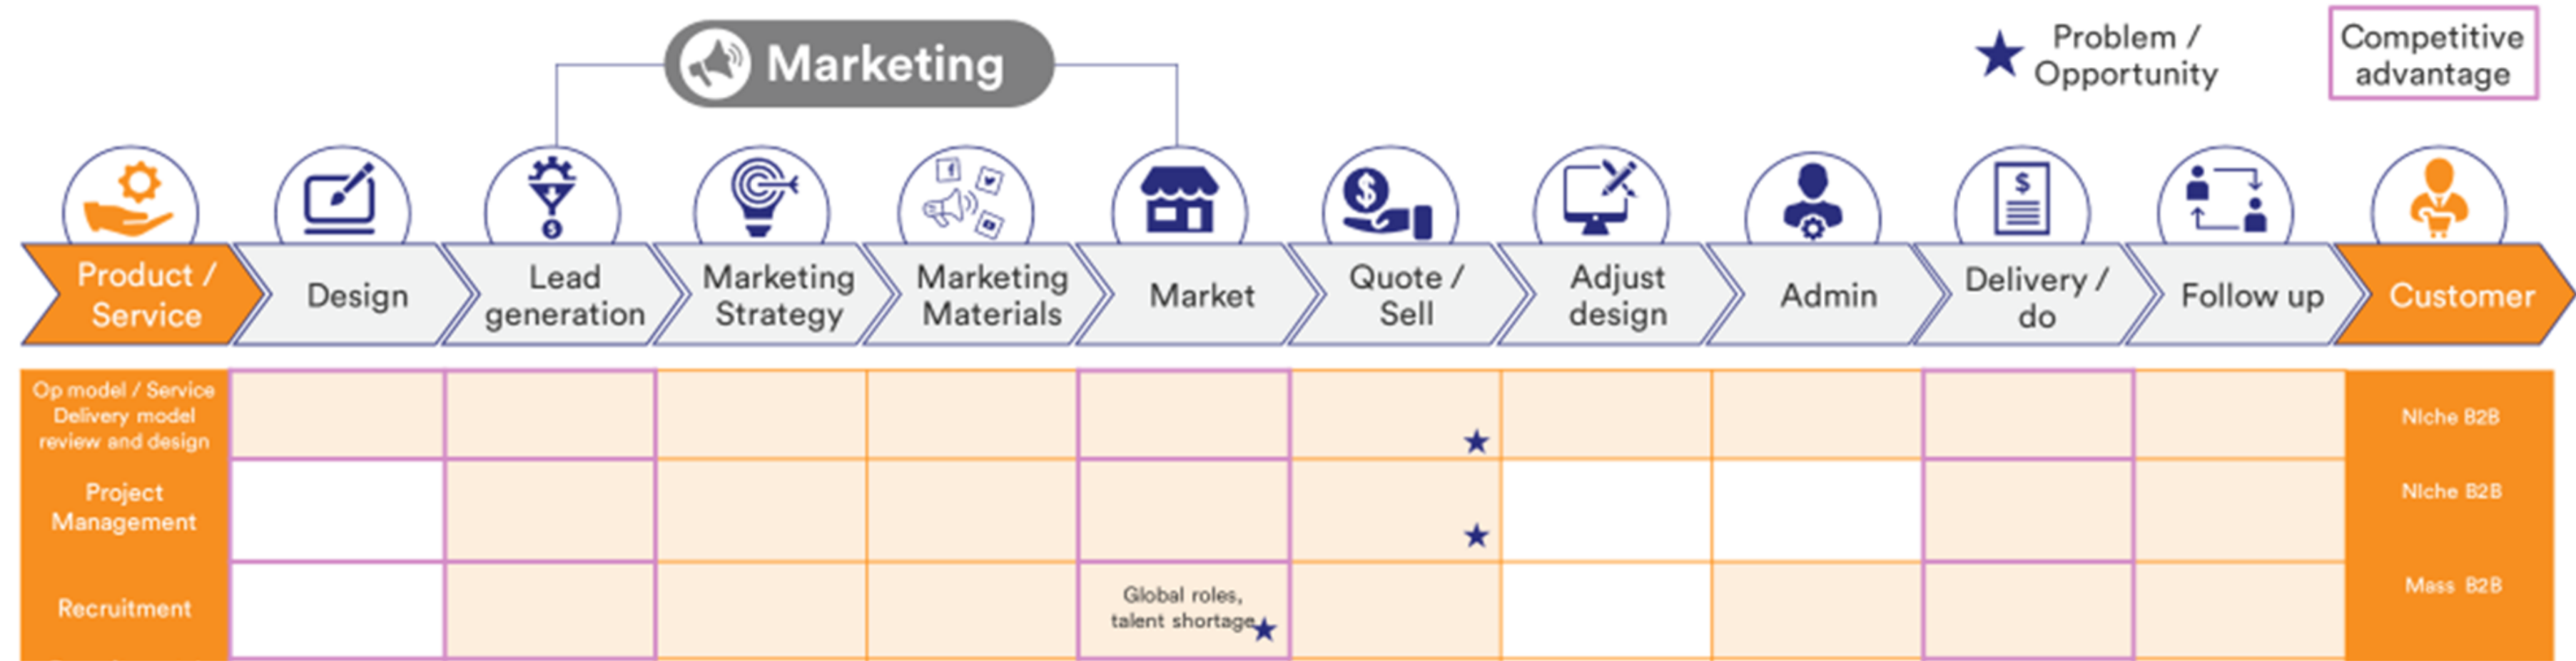

What organisations provide inputs to the work and what sort of relationships exist with these organisations

Management system & enablers

The planning, budgeting, performance management, risk management, continuous improvement and people management processes needed to run and enable the organisation

Thinking

Conceptual Thinking
Continuous Learning
Creativity & Innovation
Decision Making

Futuristic Thinking
Planning & Organising
Problem Solving

Achieving

Flexibility
Goal Orientation
Personal Accountability
Project Management

Resiliency
Self-starting
Time & Priority
Management

SKILLS

Technical

Science
Technology
Engineering
Mathematics

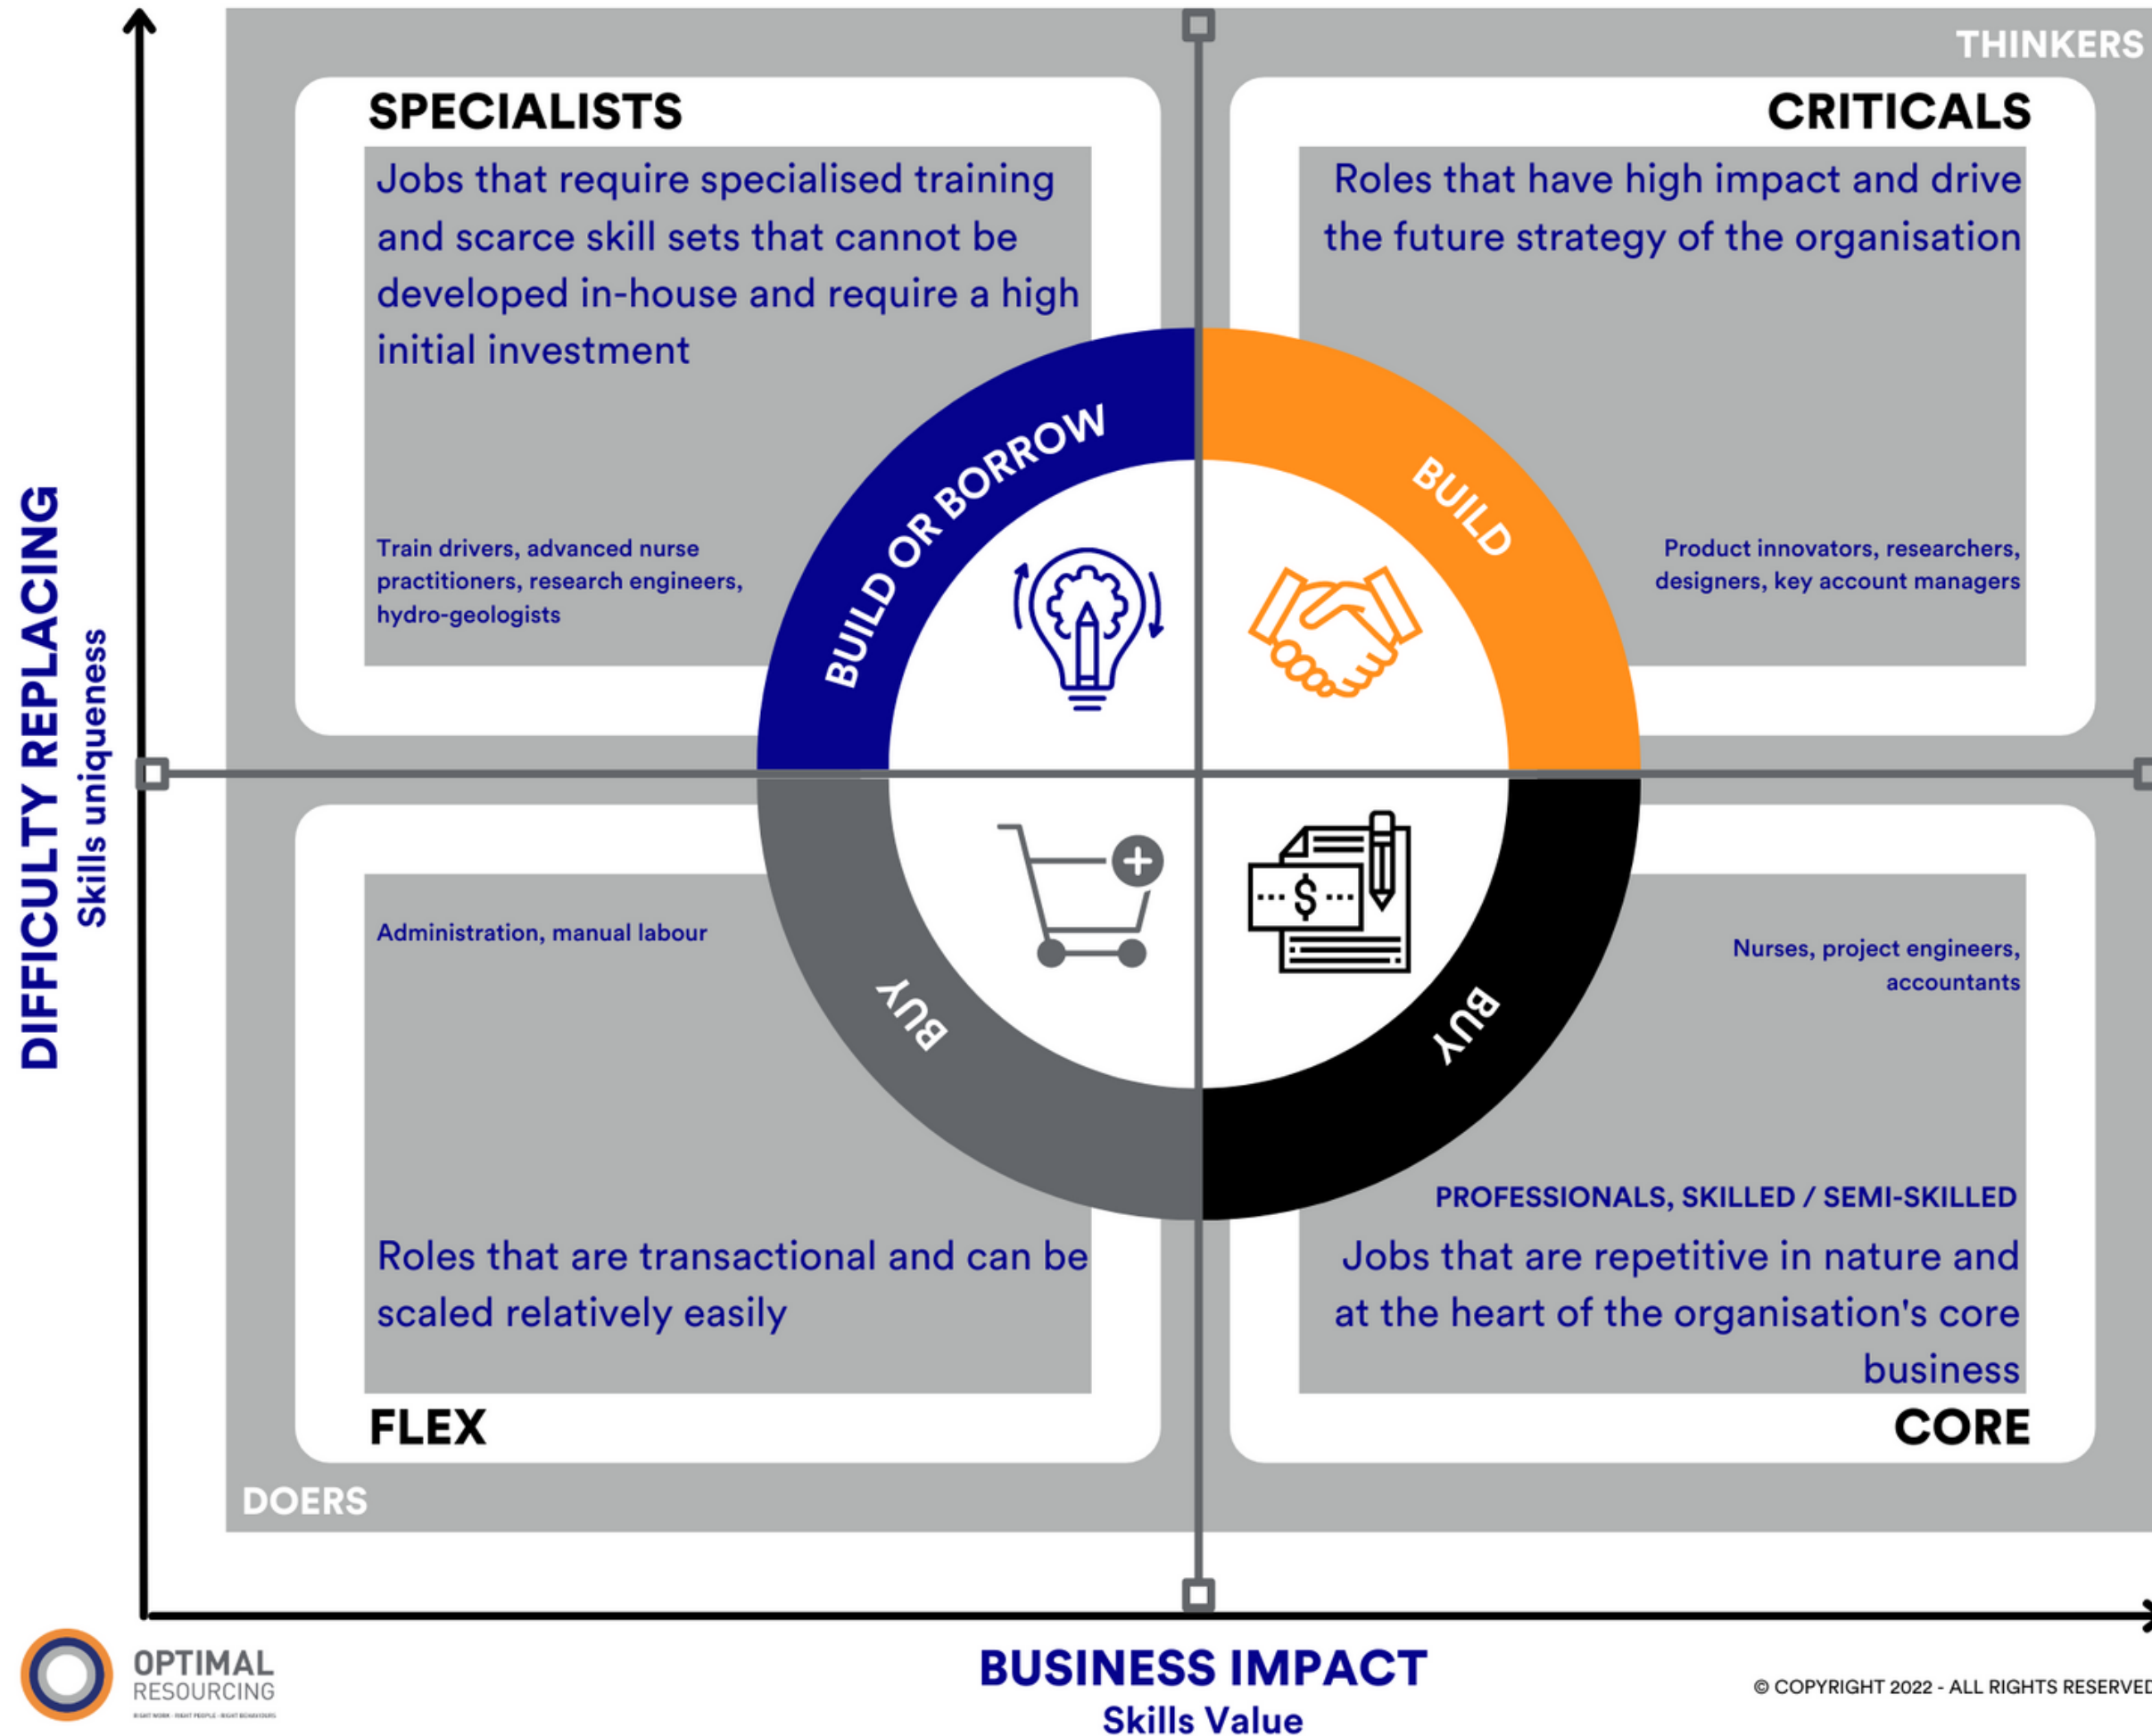

Relating

Appreciating others
Conflict Management
Customer Focus
Diplomacy
Employee Development
& Coaching

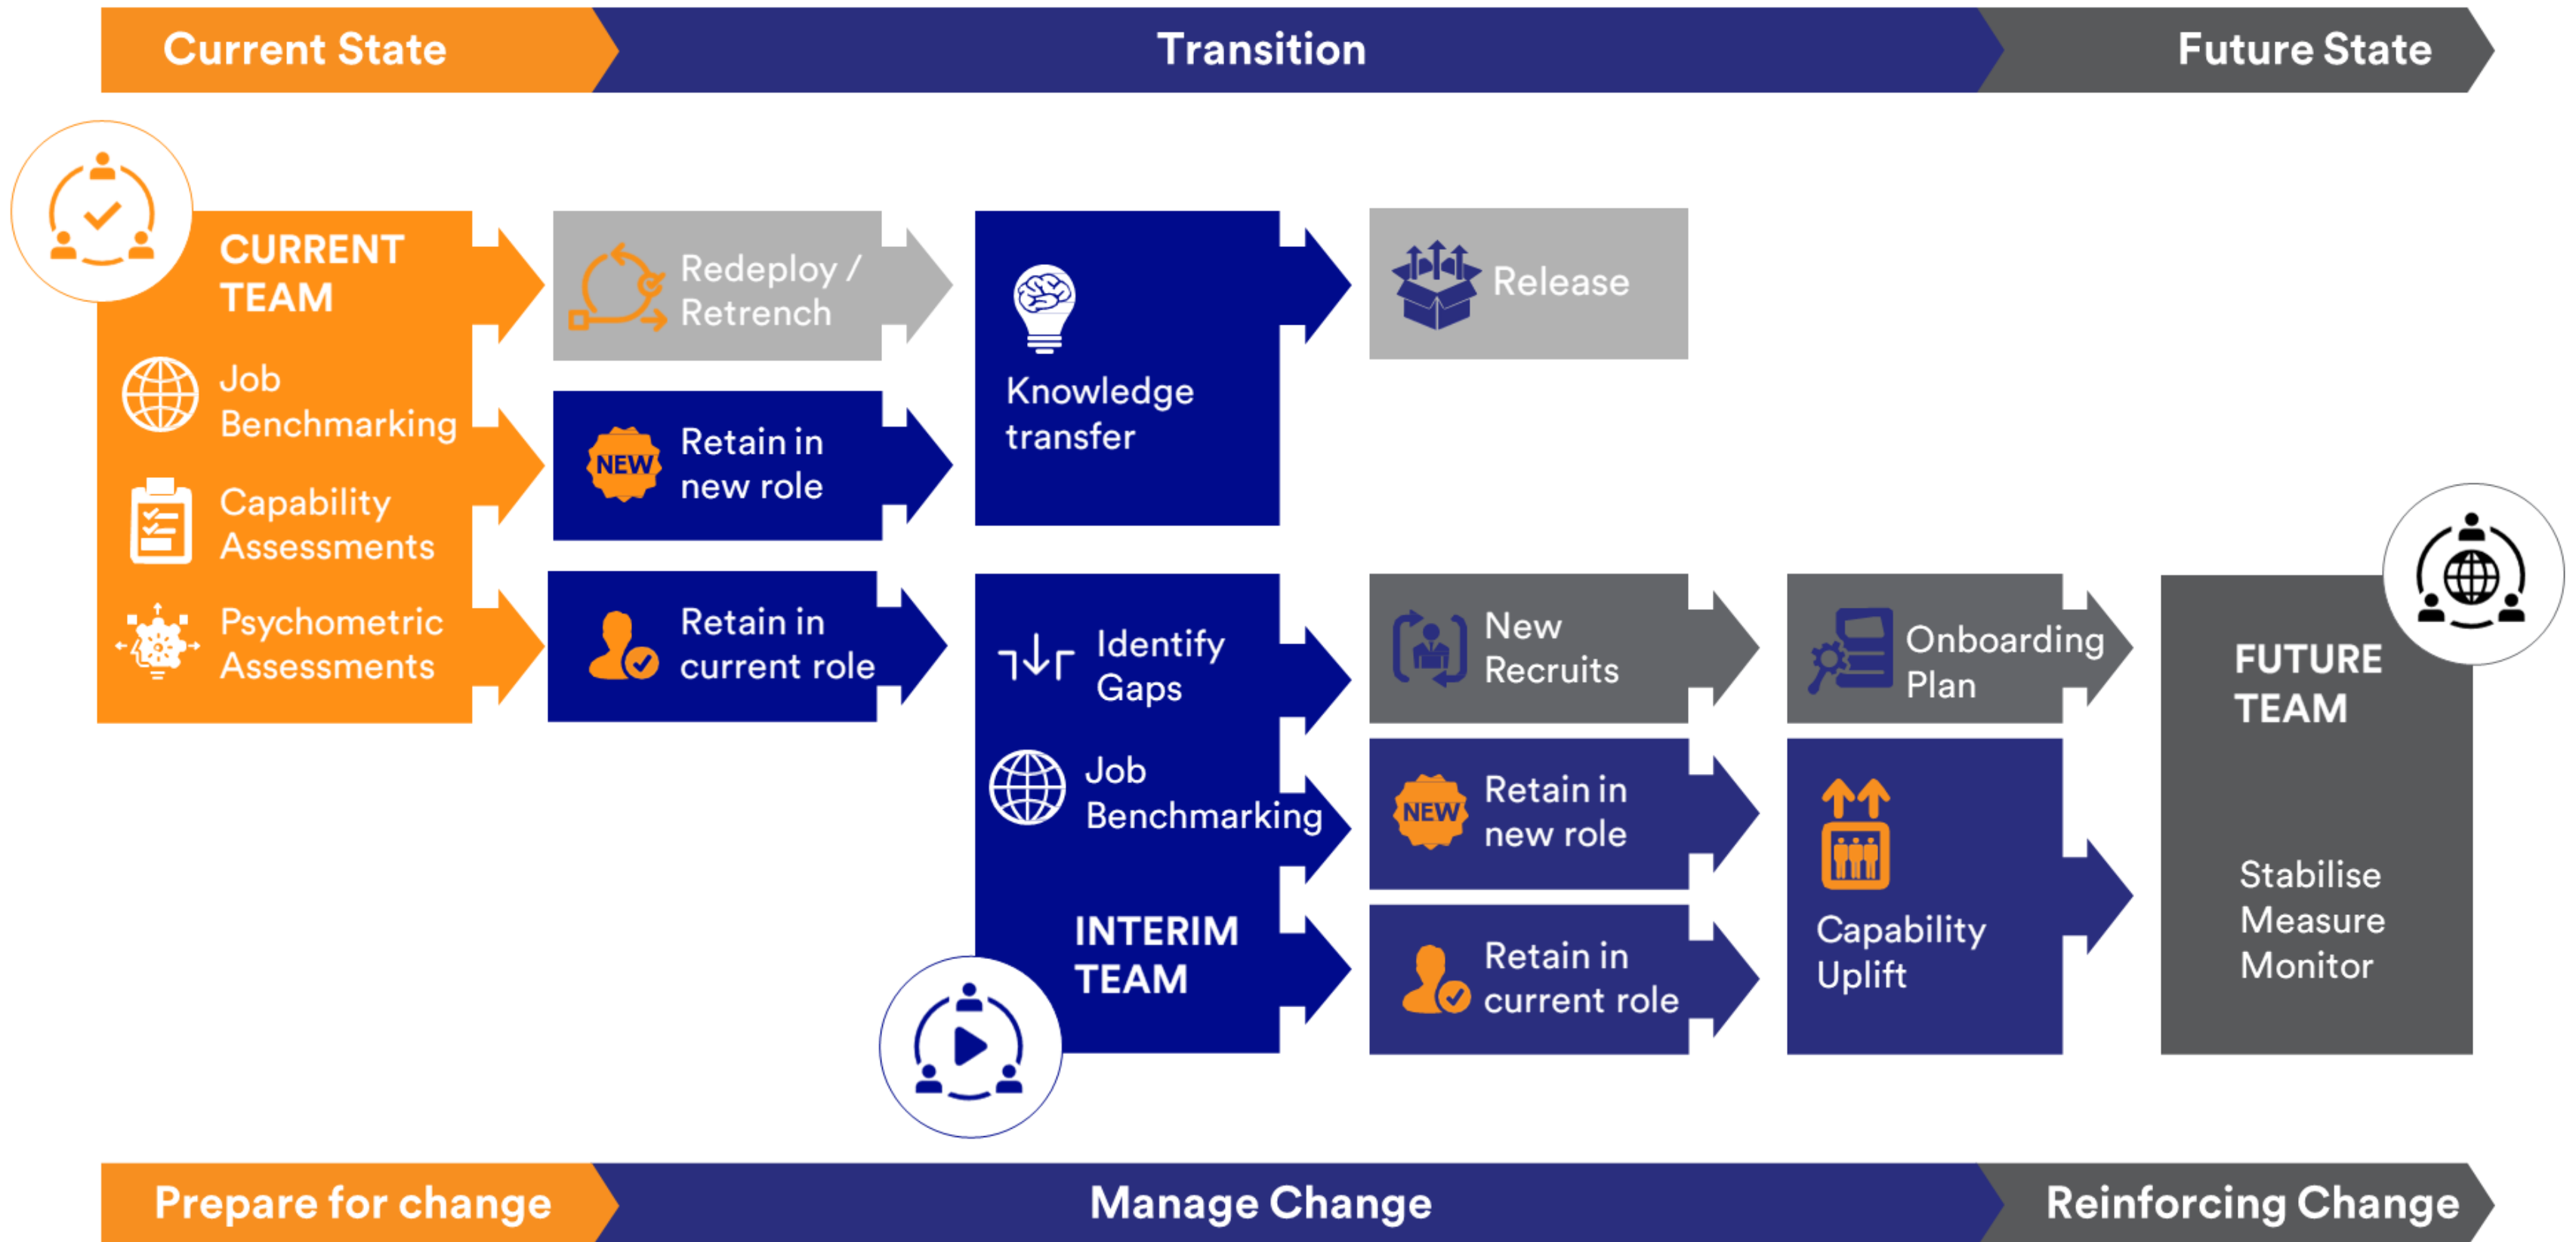

Influencing Others
Interpersonal Skills
Leadership
Negotiation
Teamwork

SKILLS BASED ROLE SEGMENTATION

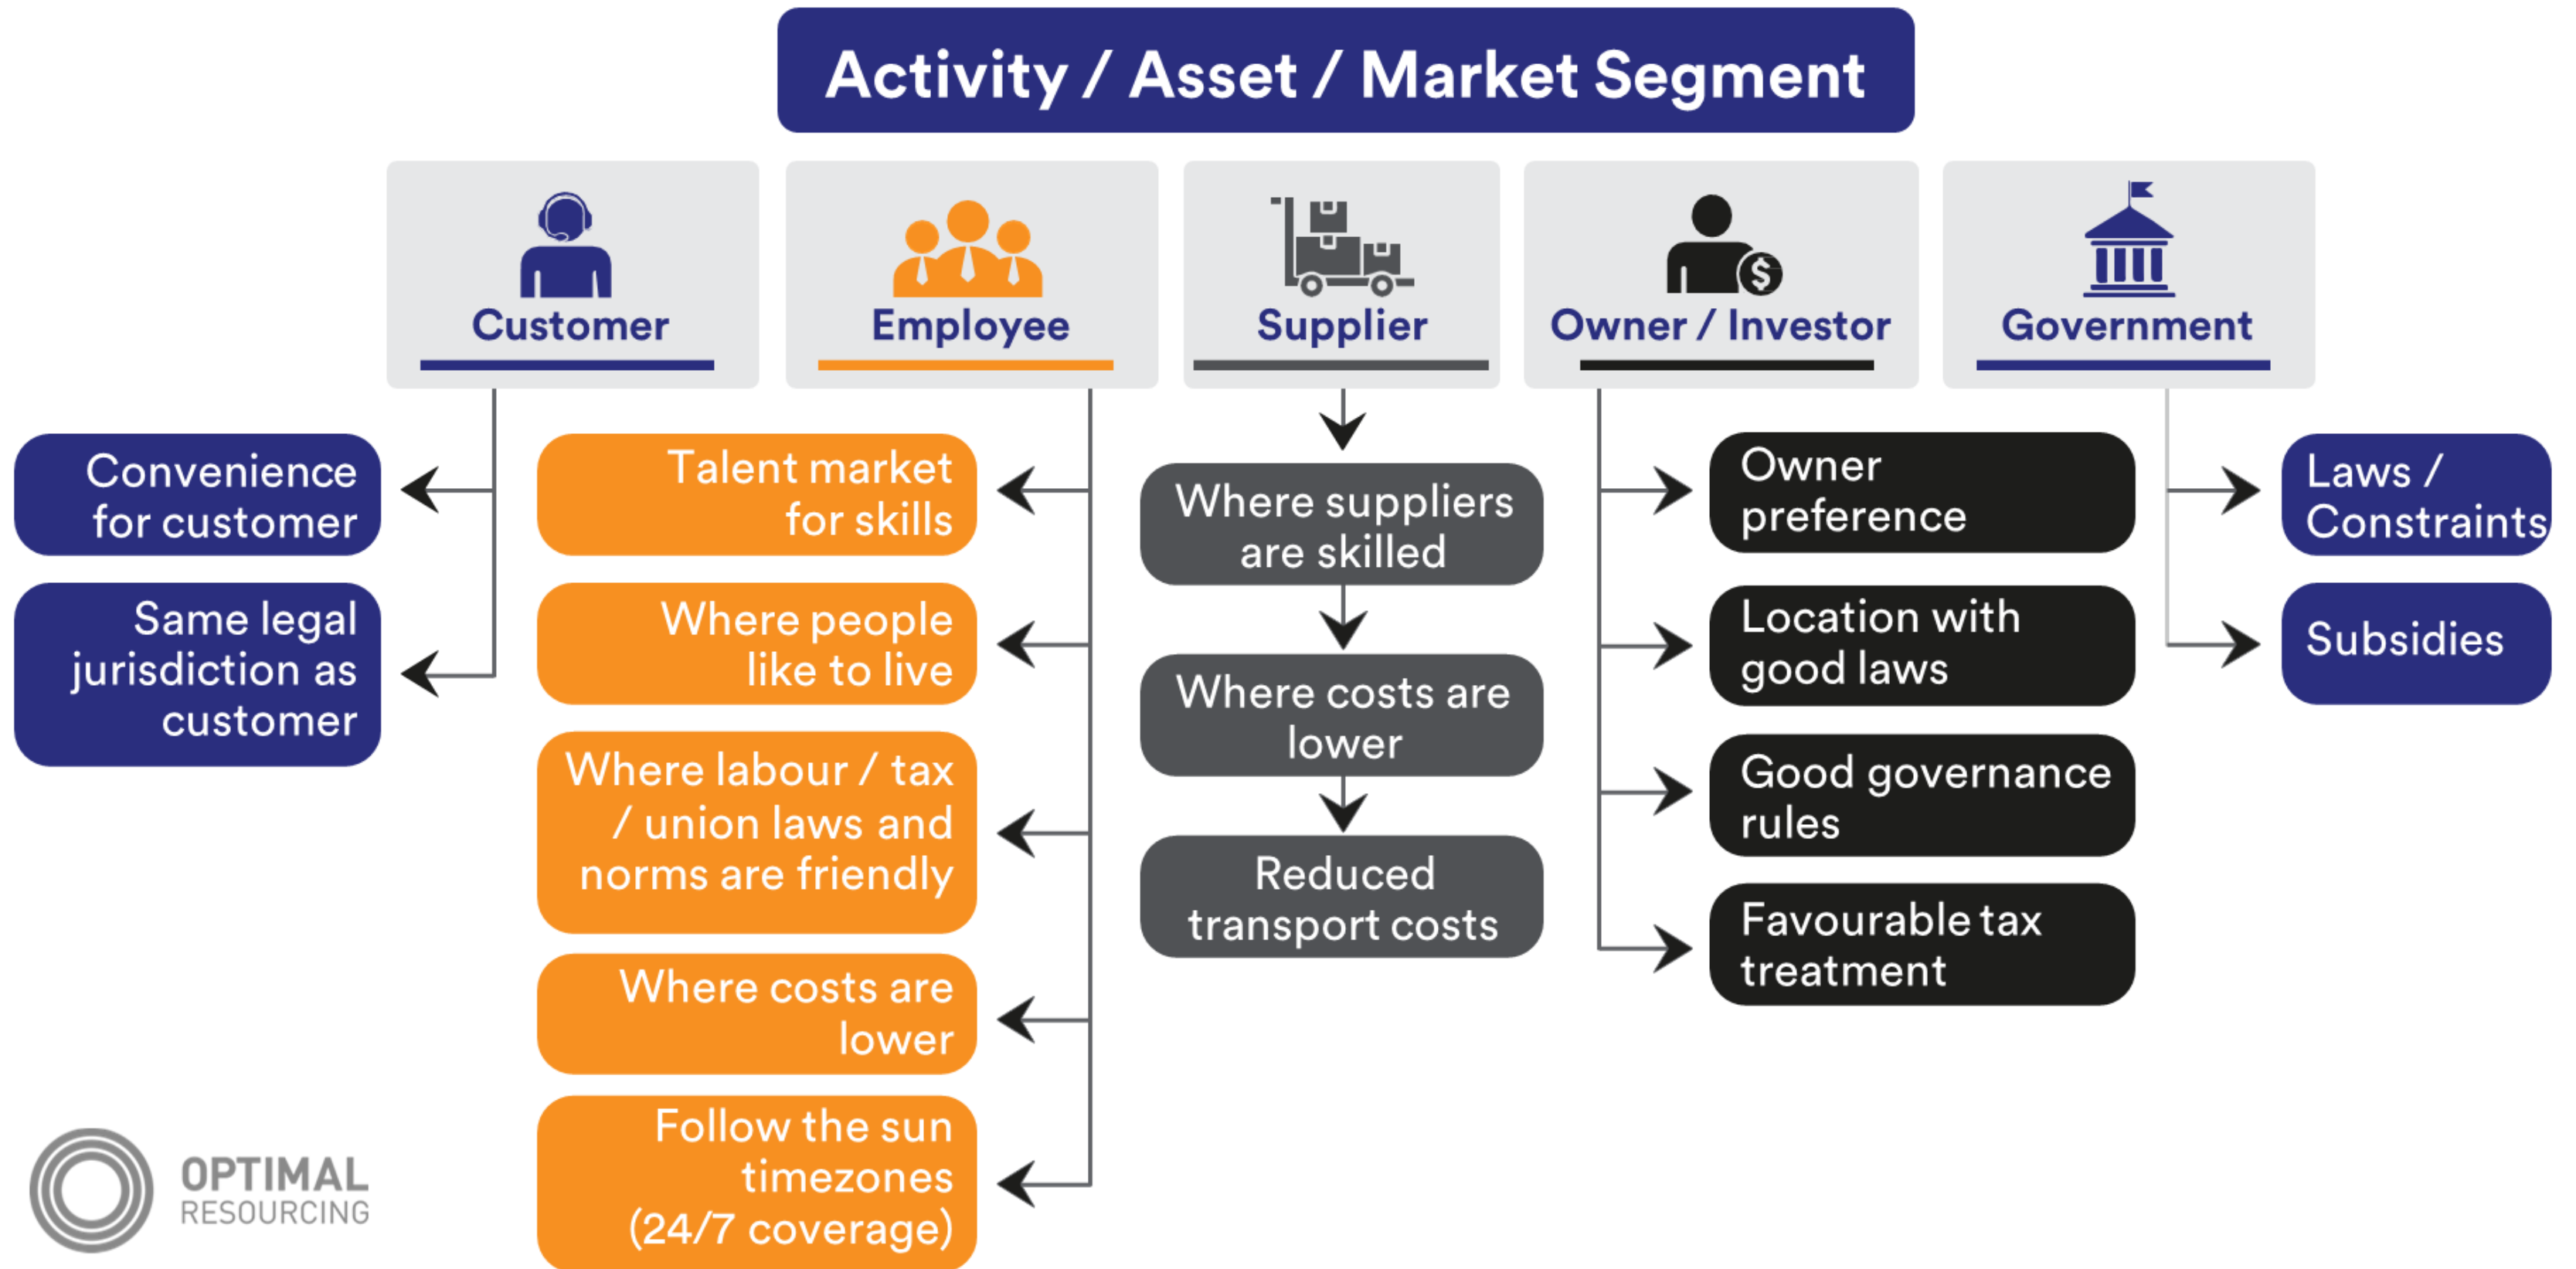

TALENT REVIEW & TRANSITION

TALENT STRATEGY ROADMAP

LOCATION DECISION TREE

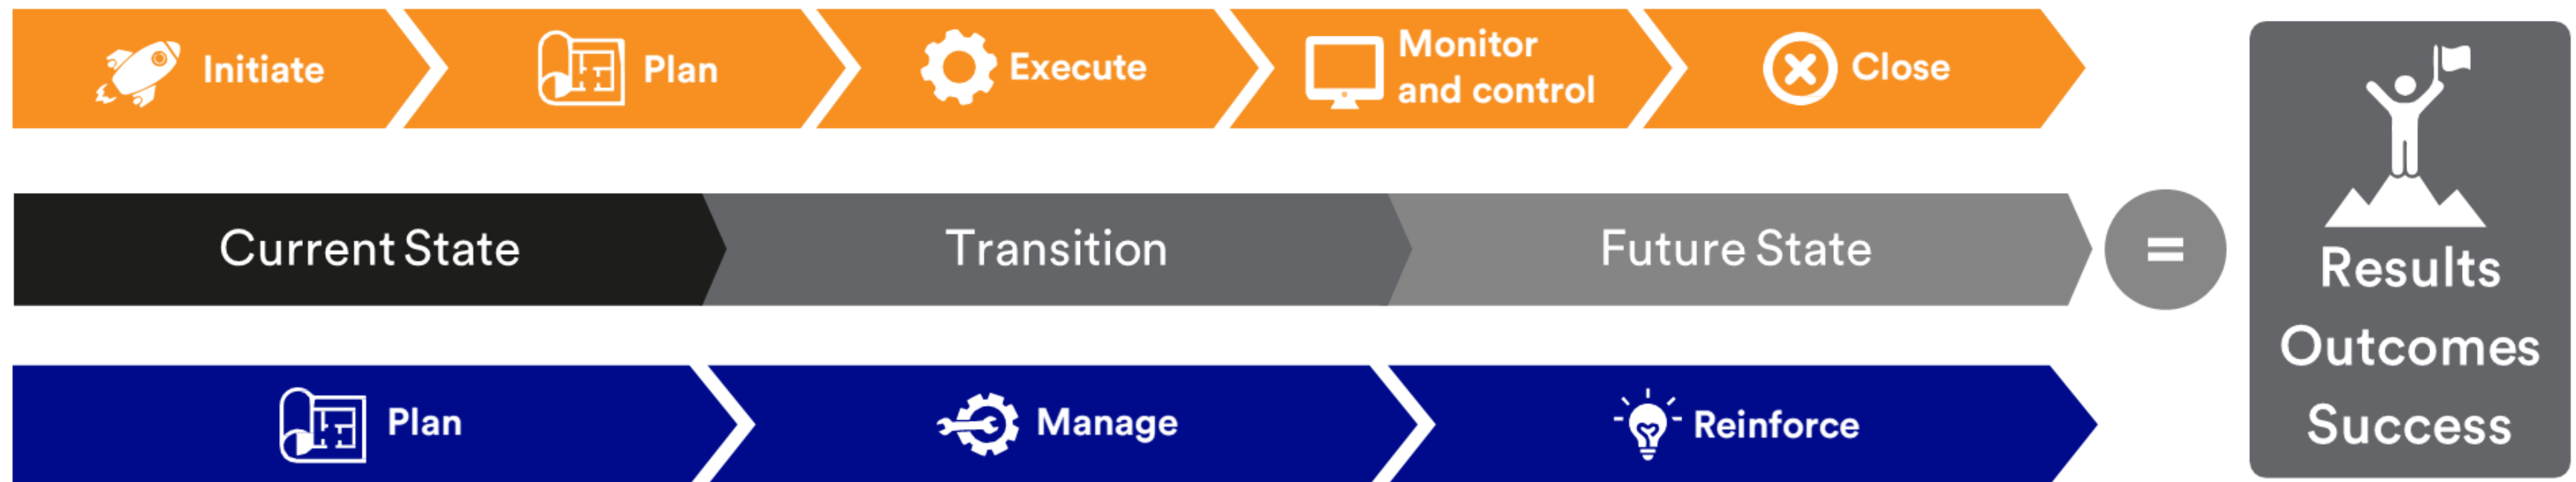

PROJECT & CHANGE MANAGEMENT

Project Management

The technical side:

the processes and activities needed to **design, develop** and **deliver** a solution effectively

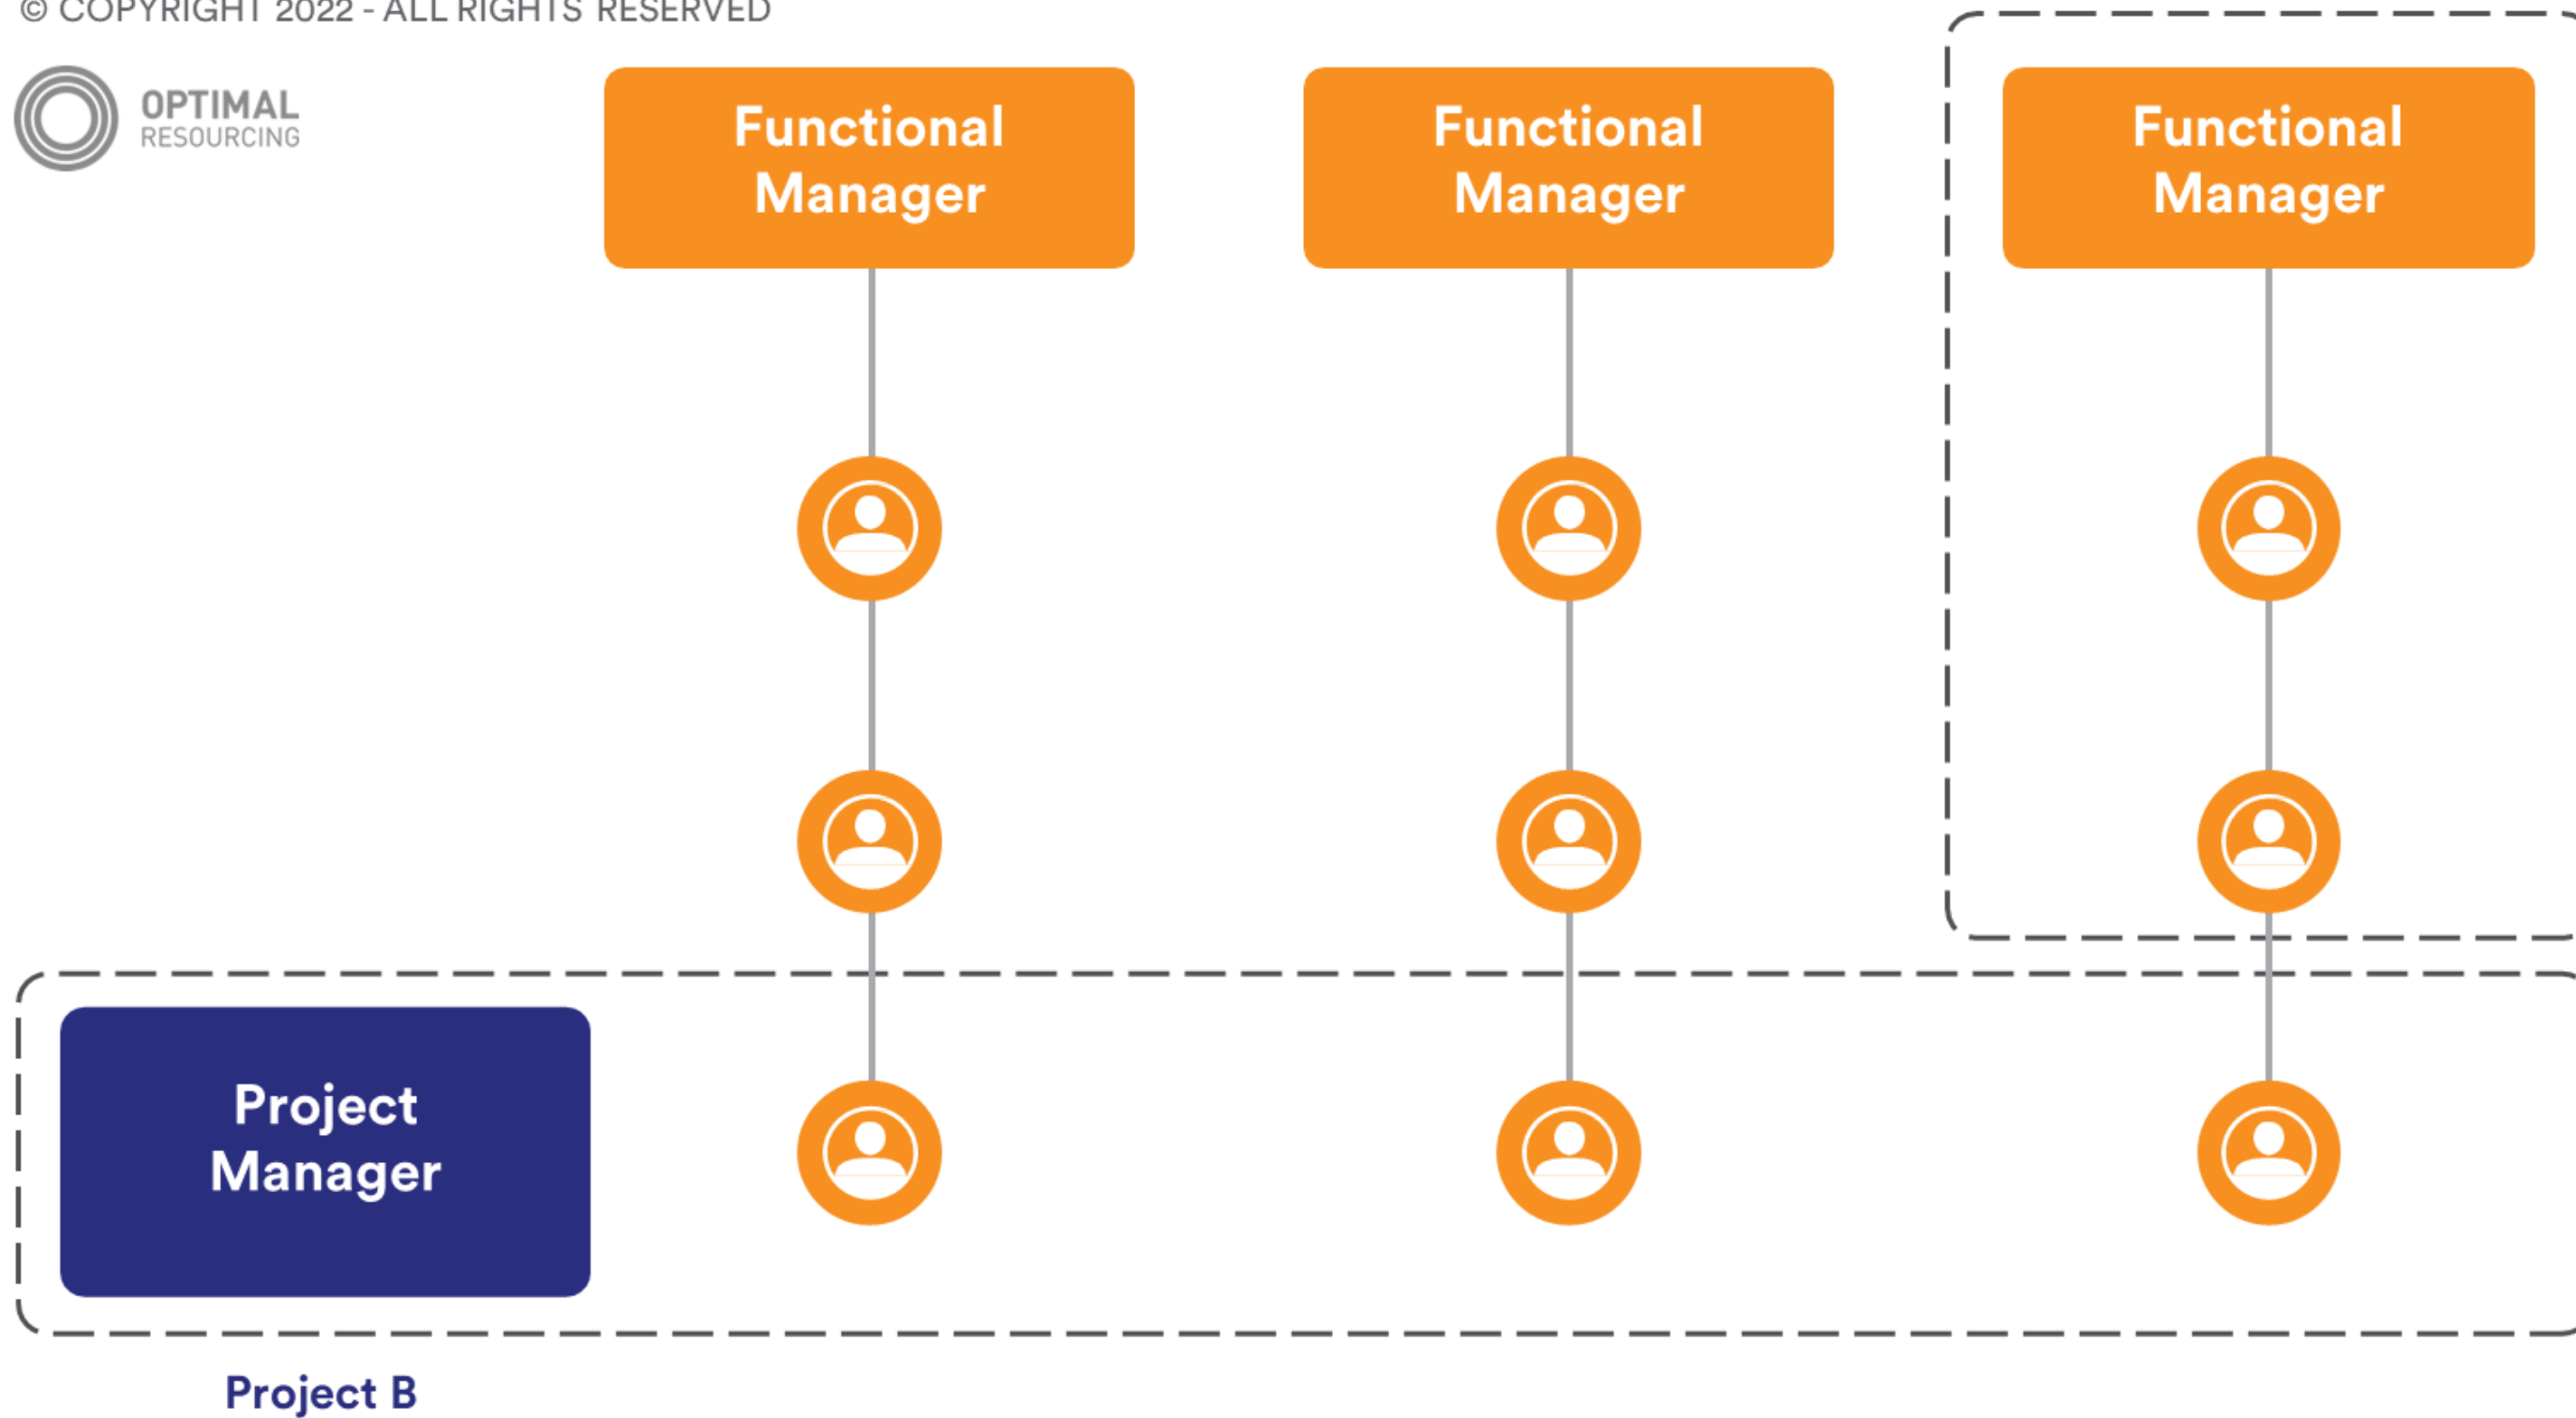

Change Management

The people side:

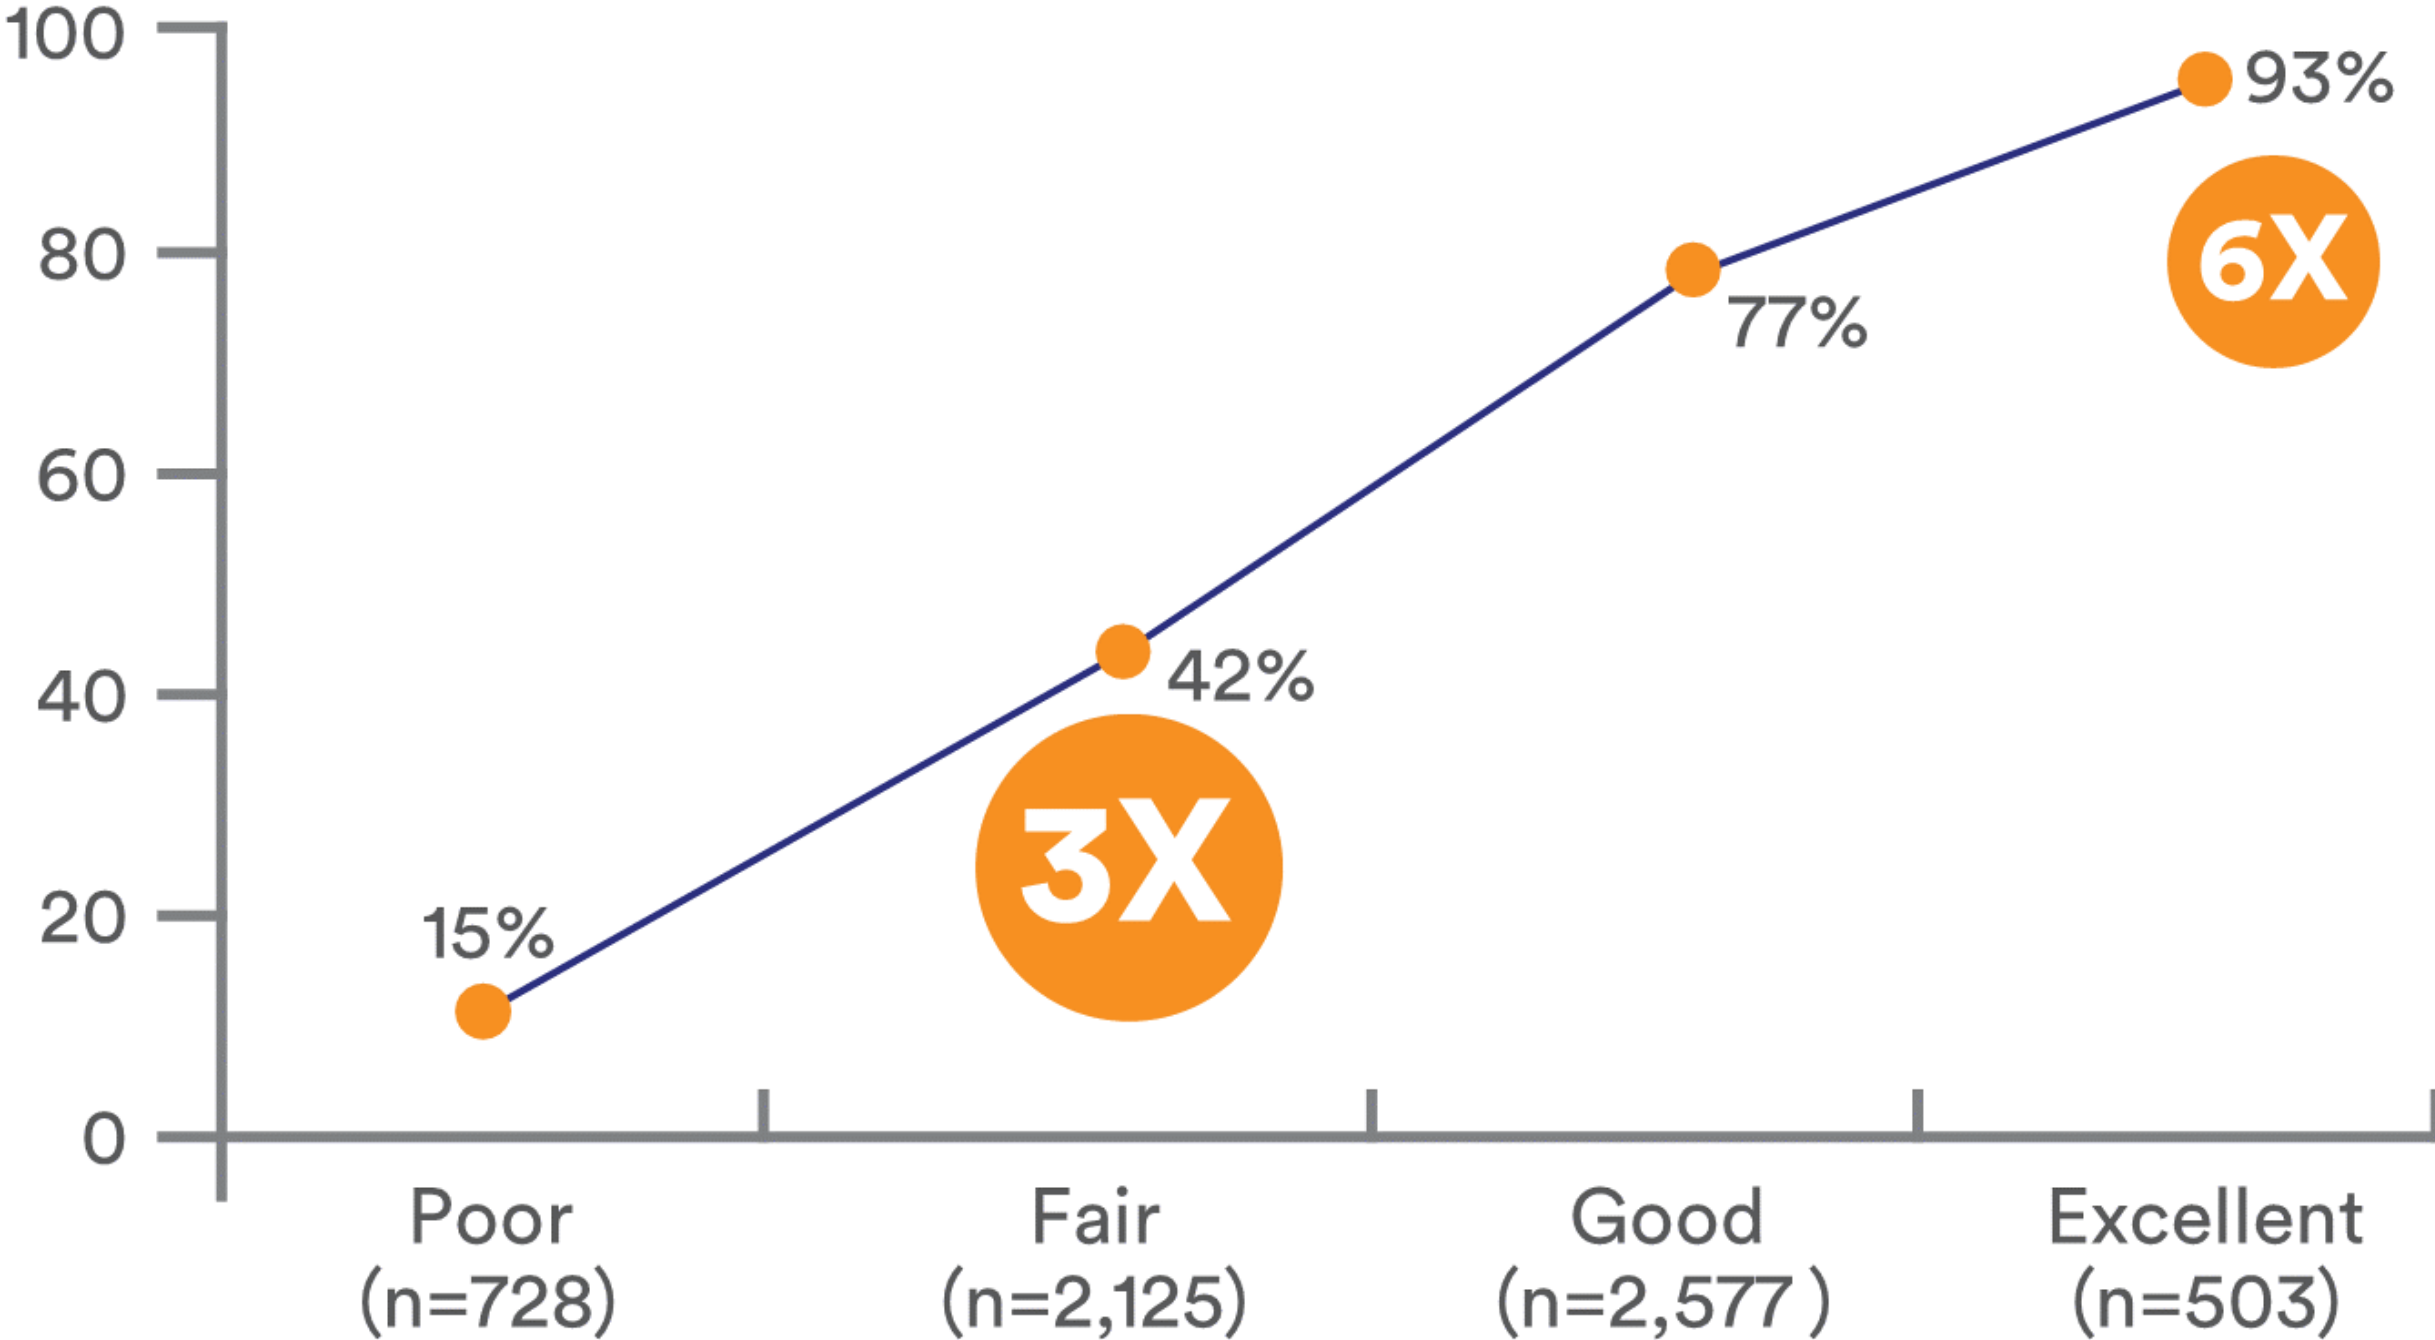

the processes needed to help employees **embrace, adopt** and **use** the new solution proficiently

MATRIX ORGANISATIONAL STRUCTURES

Stakeholder Impact (on them):

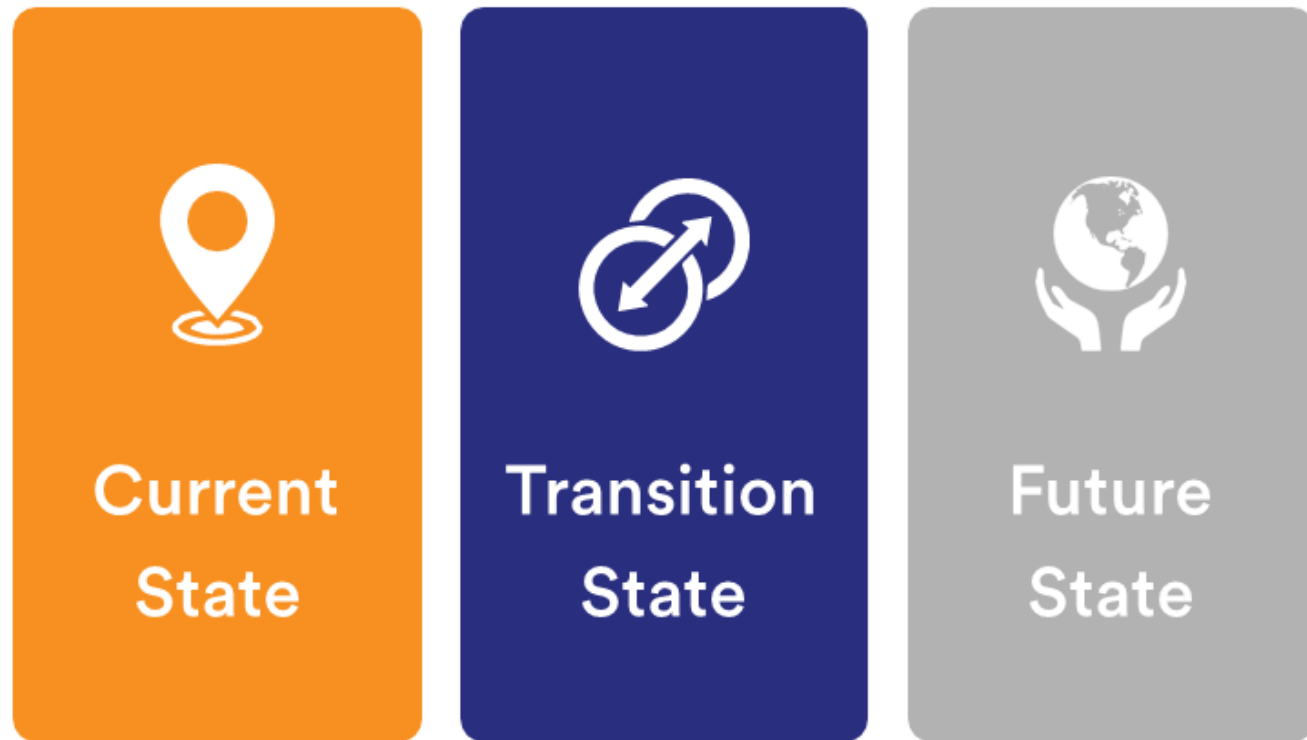

Rating:	Definition:
● Low	Little to no change to role, work practices, structure, technology
● Medium	Some moderate changes to work practices, skills, structure, technology, and/or roles and responsibilities
● High	Major impact to work practices, role, structure, and technology

Stakeholder Influence (on the success of the project):

Rating:	Definition:
● Low	Little to no influence
● Medium	Stakeholder opinions and ideas will be used to influence change initiative outcomes
● High	Decisions or actions from this stakeholder can delay, close, or significantly change the timing, scope, and/or resourcing of the change initiative

TRANSITION IMPLEMENTATION METHODOLOGY

★ STAGE GATES

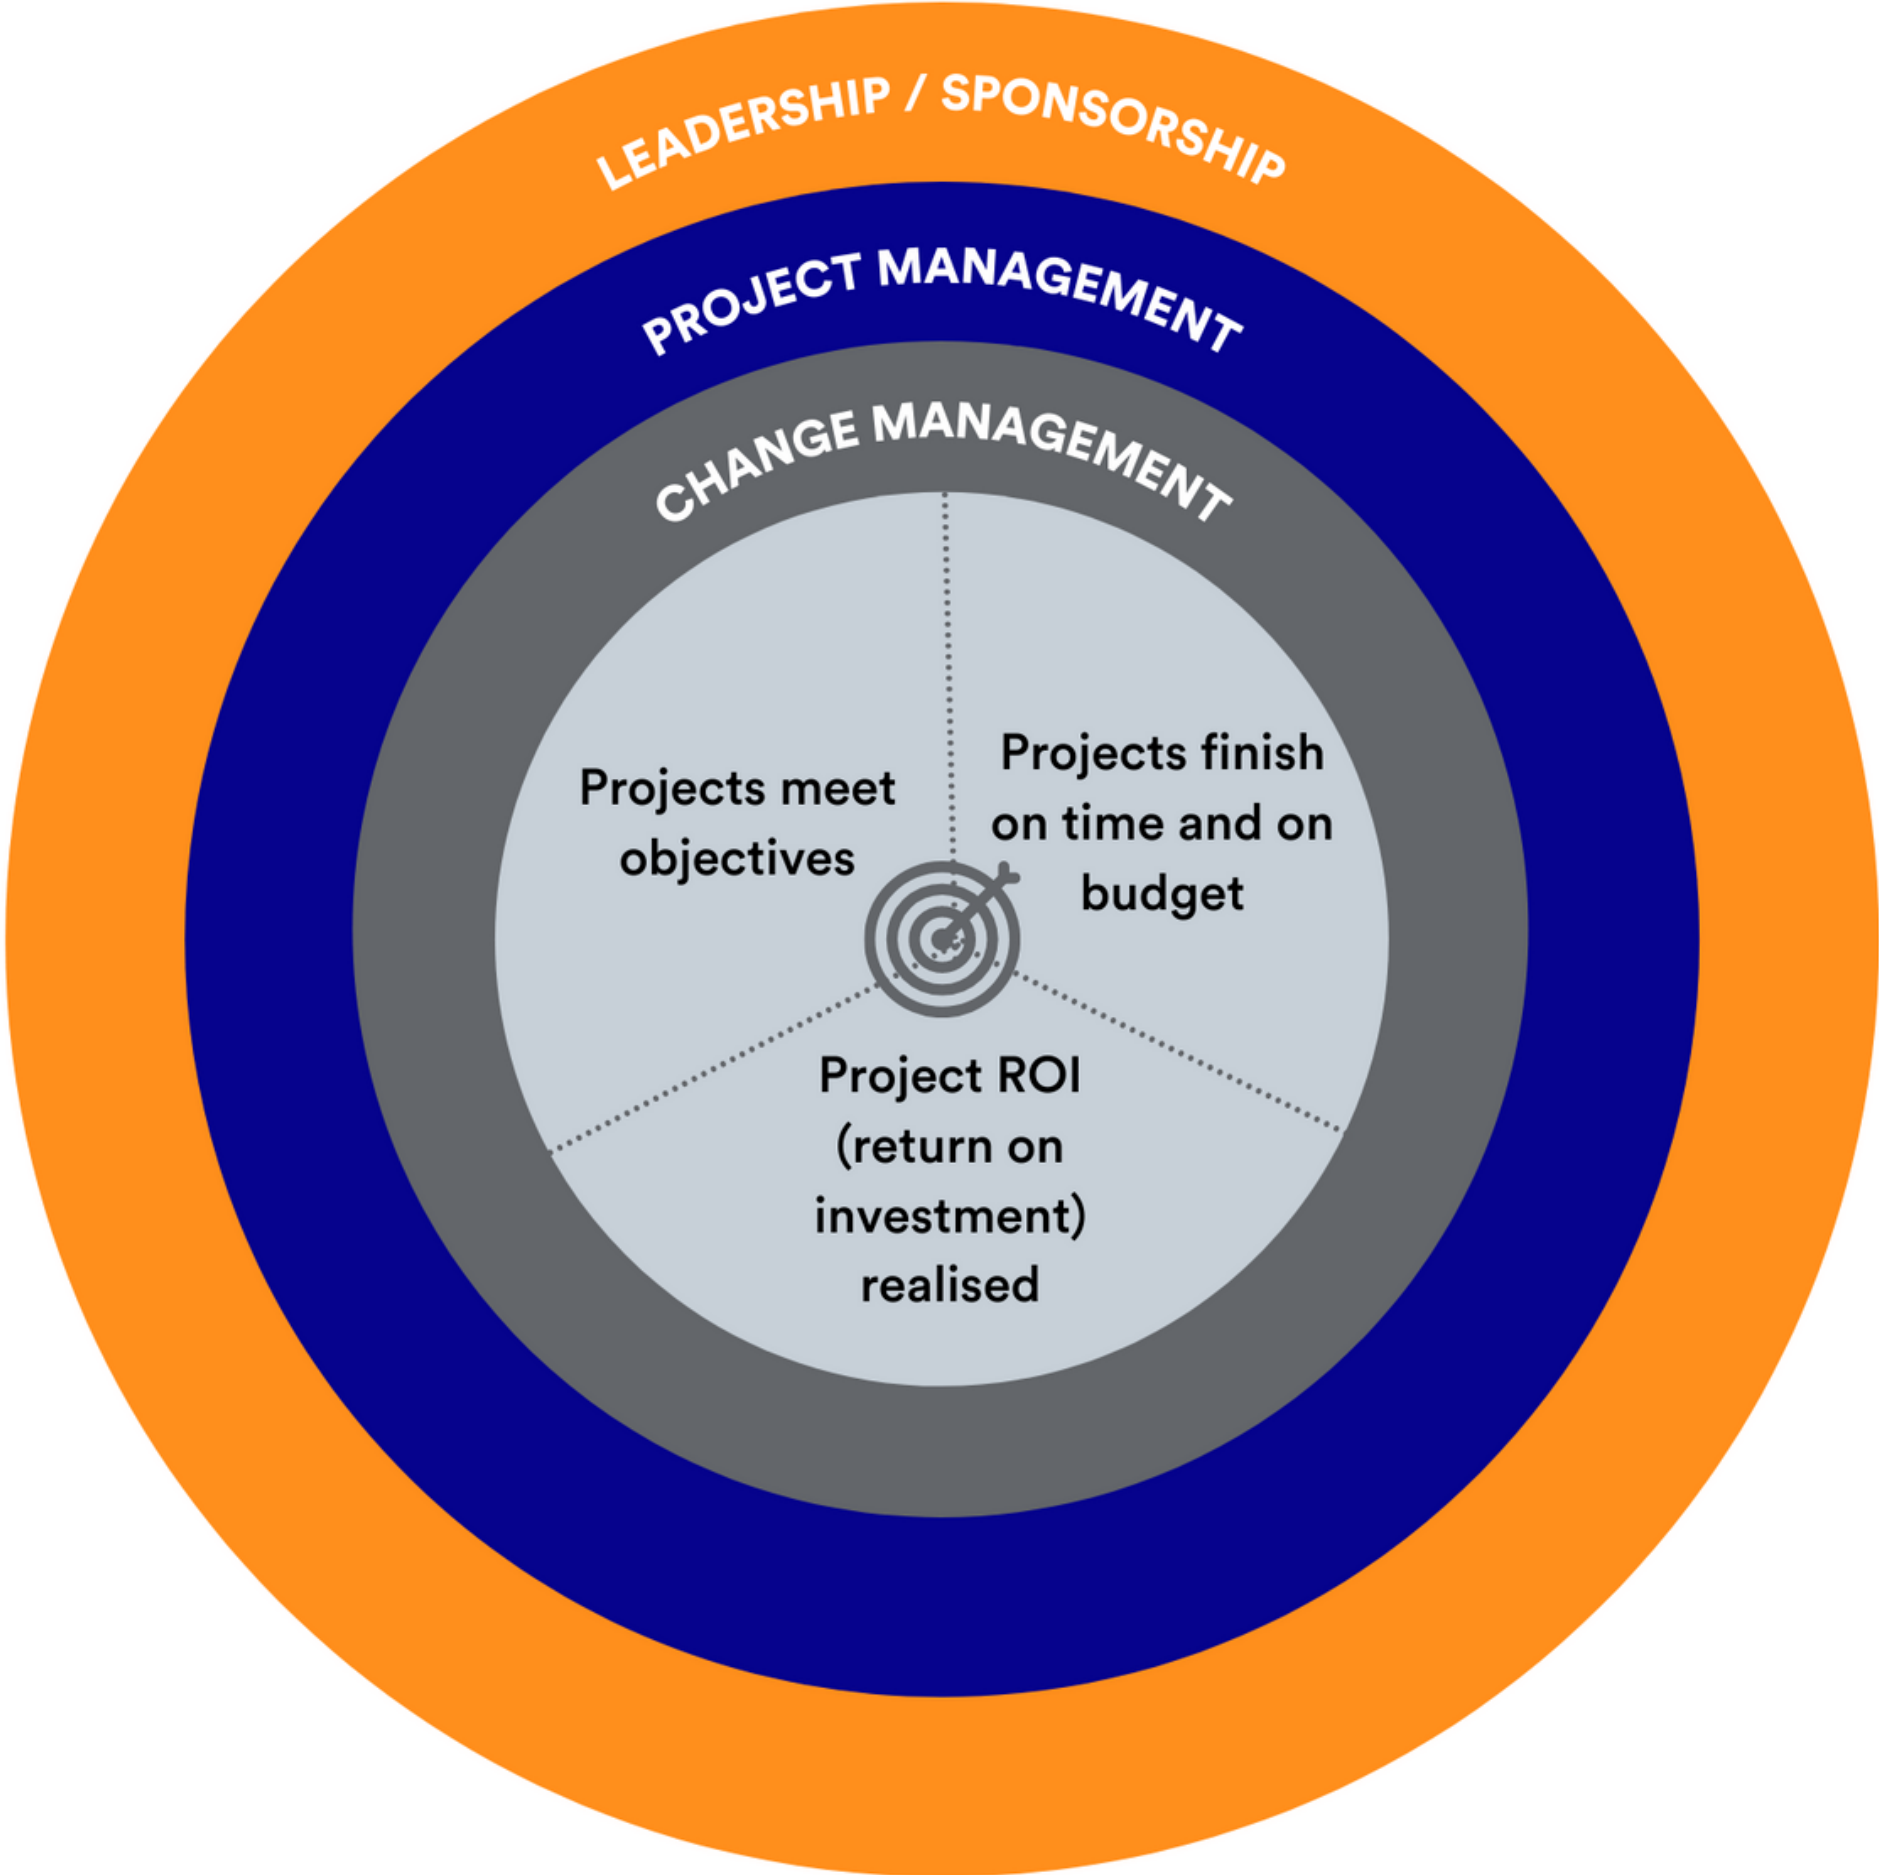

Future state Organisation Designed

	Example
Q01	What is the local legal/regulatory/agreement/cultural requirement relating to this Transition process? (briefly explain application of requirement) e.g. 75% of roles must be filled locally
Q02	Relevant Process (refer to process maps)
Q03	What country/region(s) does the requirement apply to?
Q04	What population is this requirement in relation to? e.g. professional, operations, maintenance, etc.
Q05	What is this local requirement stipulated by? (subset from drop down list)
Q06	Supporting Documentation Name e.g. name of a policy that outlines the requirement
Q07	Document Location (or individual who would be the point of contact to provide additional information if supporting documentation is not provided)
Q08	What local reporting requirements do you have that relate to this specific transitional requirement (R, T, F in e.g. frequency, specific data points, etc.)
Q09	Who is this required by? provided to?

SUCCESSFUL CHANGE MANAGEMENT

Based on ProSci model of change success
